Re: COVID-19 Photronics Supply Chain Preparedness

Dear Valued Customer:

As you may be aware, the COVID-19 Coronavirus has been declared a pandemic by the World Health Organization. Our thoughts and prayers continue to go out to everyone affected by the virus.

We continue to be in direct contact with our raw material and logistics suppliers and believe there will be no impact on Photronics Operations. All Photronics manufacturing operations have multiple sources of supply and carry sufficient buffer inventory of raw materials to cover any contingency needs.

We continue to be in direct contact with our OEM equipment service groups and believe there will be no impact on Photronics Operations. All equipment service groups have local FSE's to support our sites and are supplementing with remote support where necessary.

We will continue to monitor the situation closely and will send updated communications as the situation merits. Should you have any questions or concerns please contact me directly at (203) 740-5224.

Sincerely,

Eric H. Kline
Senior Director of Global Supply Chain
